

## BOTH SIDES CLAIM VICTORY

Nearly Sixteen Thousand Men Join the Ranks of the Strikers.

## Men in Chicago Refuse to Obey

The General Strike Order That was Issued by President Shaffer. The Mills at Bellair, Ohio, are in Operation But the Work is Being Done by the Officials and Some Green Hands.

Pittsburg, August 12.—It now seems certain that none of the Carnegie mills will be involved in the Amalgamated struggle. Shaffer will not discuss the disobedience of the Amalgamated men of the Illinois Steel Works who refused to go out. According to the Amalgamated figures 15,900 men of the Amalgamated went out this morning. At the National Steel Works, Newcastle, Pa., 2,000; at Mingo Junction, O., 1,500; at Steubenville, 2,000; at Bellaire, 900; at the National Tube Works at McKeesport, 1,500; at Riverview, Wheeling, 6,000; at the Republic Works, Pittsburg, 1,500; at the Elba Rolling Mills, 500. At the steel trust plants in Chicago and Joliet all the men are at work this morning and there is no trouble.

## SHEET METAL WORKERS

Will Not Work Sheets Made by Non-Union Workmen.

Pittsburg, Aug. 12.—A significant letter was received by Secretary Williams, of the Amalgamated Association this morning, from the Amalgamated Sheet Metal Workers International Union, Baltimore. It conveyed the information that the sheet metal workers will not work tin or sheets made by non-union men. This organization is one of the strongest in the world, and includes all craftsmen who work articles of tin in every form.

## AN EVEN BREAK

Between Union and the Trust is the Situation at Present.

Pittsburg, Aug. 12.—So far it appears that the steel trust and the Amalgamated Association have about broken even. The steel trust expected that fewer men would strike than did strike and President Shaffer, of the Amalgamated, this morning says that the local strike situation is satisfactory. He also reports that the mills at McKeesport are entirely closed.

## ALL LABOR UNIONS

Have Been Appealed to by the Amalgamated for Support.

Pittsburg, Aug. 12.—The long expected appeal of the Amalgamated Association to the labor unions and the general public for financial support in the present strike was made this morning. Secretary Williams believes the appeal will meet with a ready response, and that abundant means will be provided with which to carry on the fight against the steel trust.

## AT ANY COST

Officials Declare They Will Operate the Bellaire Mill.

Bellaire, O., Aug. 12.—The Amalgamated Association took in two hundred

and fifty men at the Bellaire Steel Works, Sunday. The mill is being worked by the officials and green hands today who are merely running the machinery and making a bluff at the night force this morning but no violence was offered. Twenty-five colored men who were brought in are working. They will be boarded inside the mill which is entirely surrounded by a twelve foot board fence. The management say they will operate the mill at any cost.

## VICTORY CLAIMED

By the Steel Trust Because Union Men Refuse to Quit Work.

Pittsburg, Aug. 12.—The iron masters are claiming victory in the great steel strike because of the refusal of the Amalgamated men at South Chicago, Joliet and Bayview to obey the general strike order of President Shaffer, and success in maintaining operations in other plants where it was anticipated that there would be serious trouble.

The strike leaders meet the claims of victory with the assertion that their cause is making satisfactory progress and that they will show themselves masters of the situation before the contest has progressed much farther. They do not conceal their disappointment at the refusal of the western brethren to join with them in the strike, but none of the leaders would discuss the defection. They declared there would be developments throughout the week that would materially change the situation. They would not say, however, what they had in mind or how their cause was to gain strength. It was said that they were counting on strong aid from the American Federation of Labor and other union labor organizations, but those bodies have not yet given public indication of what they will do.

The Amalgamated Association has developed great strength in Wheeling district and has made gains in some of the Pennsylvania districts. The steel officials, who kept in communication with their superintendents and district managers, summarized the situation thus: South Chicago, Joliet and Bayview at Milwaukee voted to stay in; the Ohio works of the National Steel company, Youngstown, and the King, Gilbert & Warner plants of the National Steel company at Columbus resumed without trouble; the Homestead, Edgar, Thomp-

son, Duquesne, Upper and Lower Union and Howard axle works of the Carnegie group, employing more than 15,000 men, resumed work without trouble; the converting and the blooming mills of the National Tube company at McKeesport had started without difficulty, and that Bellaire had been only partially crippled. They were also advised that the men of the Boston rolling mills at McKeesport had notified the National Tube company that they would go out and that at the National Tube plant at McKeesport many men would go out. They were also notified that their Wheeling plants were crippled.

The steel officials were elated over their showing at the Carnegie plants and in Illinois, Ohio and Wisconsin, and expressed confidence in speedy victory over the Amalgamated Association.

The puddling furnaces of the National rolling mill at McKeesport were fired preparatory to a start of the mill at 7 o'clock this morning. The strikers had the entire plant picketed all night. The fire was pulled at the Republic mill and at the Painters mill at 3 o'clock this morning because of lack of men. The Lindsay and McCutcheon mill at Allegheny also gave up the attempt to start.

Tithes For Strike Fund. Cincinnati, Aug. 12.—Local Lodges 1, 5 and 8 of the Amalgamated Association of Iron and Steel Workers of Covington and Newport, Ky., have been notified to contribute 10 per cent of their wages for the benefit of the striking members. All the mills in these cities are independent of the trust, and no trouble is anticipated.

Washington, Aug. 12.—Word from Peking is to the effect that a tariff of five per cent ad valorem will be put in force in China soon. The free list, however, includes rice, cereals and flour. This is very pleasing to the U. S. as she ships rice into China from the Philippines and heavy consignments of flour and cereals from this country.

## THE POPE

Offers Prayer for the Soul of His Old Enemy.

Rome, Aug. 12.—Owing to the lateness of the hour at which Seno Crispi died, Cardinal Rampolla did not notify the Pope until this morning. When he heard of ex-Premier's death, his holiness exclaimed, "Providence evidently has really decreed that I am to be last of my generation to go. Well, Crispi was a good fighter." The Pope then knelt in prayer for the soul of his enemy.

## SAMPSON

May Also be Absent from the Schley Trial.

His Friends Say His Present Physical Condition Demand Seclusion and Retirement. May End Entire Case.

Special by wire to Times-Democrat. Washington, Aug. 12.—It is stated in naval circles here that Admiral Sampson's condition is such that his health may not permit his appearing at the Schley court of inquiry. Friends and medical advisers are now urging retirement and seclusion for him. Should Sampson fail to appear at the trial the whole case may be abandoned as no satisfactory settlement is possible without him as a witness.

## PAIR

Of Clever Thieves Captured.

## Diamond Rings

And Several Pawn Tickets Found

In Possession of One Prisoner, a Woman, Who Made a Confession.

Were Arrested in Boston and are Believed to be "Badger Workers" Who are Wanted by Chicago Police.

Boston, Aug. 12.—The police have under arrest for Chicago officers two alleged expert "badger workers," and the evidence procured, together with the confession the woman is said to have made, makes it appear that the prisoners are more than ordinarily adroit in crime. The woman is Nellie Pentony, with such aliases as Nellie Watson, May Dunn and "Blonde" Nellie. Her partner is John Pentony, alias John Warner, alias John Burr. When searched at police headquarters the woman's tiny pocketbook concealed in her dress yielded seven diamond rings and a diamond studded locket and pawn tickets for diamonds pawned in New York city, Buffalo, Chicago and Cleveland. In the room the couple had occupied were found jewelry and other articles.

The arrest came about by accident, the woman being taken a few nights ago for night walking. She was fined in court and was sent to Deer Island in default of bail. Her husband secured cash bail and got her release, coming to the city from the island with her. After the woman's arrest Chief Inspector Watts was notified from Chicago that two "badger workers" and diamond pippers had come east and were thought to be in Boston. The description furnished seemed to fit the woman, but the officers were not certain about the man. When Pentony and the woman stepped off the Deer Island boat they were escorted to police headquarters and were given an opportunity to tell their history. The story both told was smooth, but when the woman was confronted with the Bertillon measurements and pictures taken of her in St. Louis May 29, 1897, when arrested there for larceny, she admitted that her part of the story was wrong. They were accordingly locked up for a hearing.

The police say four pawn tickets obtained in Boston were for jewelry pledged for \$150, and 15 tickets for jewelry pledges in other places were for diamond rings and lockets. In the room of the couple were two satchels. In the man's satchel were articles and pawn tickets for jewelry stolen from houses in this vicinity and a gold watch picked from a man's pocket in Lynn, Mass. Pentony admitted having been arrested at different times in New York and Chicago, and at the former place an indictment is held against him.

## RUSH

Of People for Public Positions

## That Don't Pay

As Much as an Industrious Man Can Earn

At Any Ordinary Vocation Which He May Choose to Select.

The Democratic Campaign Fund is Small While the Republicans Have the Trusts to Draw From.

Columbus, Ohio, August 12, 1901.—Regularly every year a lot of people are led to believe that there are from 25 to 50 positions in the Democratic State executive committee at from \$25 to \$100 a week, and a great rush of perspiring people try to get them, only to be disappointed, and go away with hot tempers. As a matter of truth, there are never more than ten people holding positions, and these include janitor, messenger, stenographer and clerks, the only ones receiving fixed salaries, which range from \$8 to \$15 a week.

For 20 years the funds at the disposal of the committee have run from \$2,500 to \$5,000 a year, averaging annually about \$3,500. Out of this are paid all the expenses, and if liabilities beyond the funds are incurred, the members of the committee chip in and make good. Occasionally from \$100 to \$250 have to be made up in this way.

This false idea of Democratic committee wealth is created by Republican newspapers. The writers on these papers know what the Republican committee spends and credits the Democratic committee with it—for effect.

They know that there has not been a campaign since 1896, in which the Republicans did not have from \$50,000 to \$200,000, at its command and employed from 50 to 75 people at salaries ranging from \$8 to \$200 per week, the former being the salary of the assistant janitor, the latter of the chairman.

The average weekly payroll for employees in the Democratic committee is \$125. In the Republican committee \$1200. The average weekly expenditures of the Democratic committee for rent, expenses of members, postage, stationery, expressage, telegraph, telephone, printing and plate matter is \$250. In the Republican committee, \$2,000 for the same; or \$485 a week for the Democrats and \$4,200 a week for the Republicans.

The active campaign lasts about six weeks, making about \$4,500 for the Democrats during the campaign and \$36,000 for the Republicans.

The \$4,000, representing the cost of committee work of the Democrats, is more than the average amount of the committee funds. If these reach the high water mark of \$8,000 the committee can spend \$3,200 in what is called "organization of the counties," or less than \$50 to the county.

The \$36,000 representing the cost of committee work by the Republicans is \$14,000 less than the minimum, and \$164,000 less than the maximum of their resources. If they have but \$50,000 they can apply \$175 to organization in each of the 88 counties. If they have \$200,000, about the sum they will have this year, they have a little over \$2,000 for each county to be used in "fixing things."

These are the plain facts about the matter. They will not be dispursed by well informed politicians.

The most interesting problem now occupying the attention of politicians is whether the mysterious influence behind the Groot "Bryan movement" will be able to get a third ticket on the official ballot by petition. Ten thousand signers will be necessary to accomplish this object and it is estimated that the signatures would cost Hanna \$10,000, or a dollar apiece. Nobody but paid men would circulate such petitions this year and there is no doubt that signatures would be more difficult to obtain than formerly. The Democracy is so united that the organizers of the petition would have to rely upon Republicans to stuff themselves by signing and entering

Several Other Outrages Believed to Have Been Committed by Him.

These Crimes Have Been Shrouded in Mystery Until the Arrest of the Peddler and His Subsequent Confession.

San Antonio, Texas, Aug. 12.—The capture and confession of Juan Del Gado, the Mexican peddler, clears up a series of mysterious murders and assaults of women. He admits killing Mrs. Geo. H. Cunliffe, a prominent woman of Pawtucket, R. I., while she was at Durango, Mexico; also admits killing Mrs. Ornelas, a prominent Mexican lady of Chihuahua, over a year ago. In each case he secured valuable jewelry and thousands of dollars in money. It is believed that three other prominent Mexican women, all of whom were assaulted and strangled were Delgado's victims.

The Gunboat Machias Has Passed Old Point Comfort, Va., Enroute Southward on a Similar Mission.

Washington, Aug. 12.—Capt. He also stated that the Machias had reached Old Point Comfort, Va., on its way to Columbia, to protect the American interests during the revolution.

Insane Woman's Death. Cleveland, Aug. 12.—Mrs. Robert Pringle, wife of a lake captain, while insane from illness, shot her 13-year-old daughter Mildred three times and then fatally shot herself. Mildred would probably recover. Mrs. Pringle would have killed her young son also but for the fact that the pistol had already been emptied.

into a false compact to vote one ticket when they fully intend to vote another. It would also be necessary, as has been heretofore to draw upon tombstones for names and invent others wholly fictitious, but this is not difficult and has been done before. The only question with Hanna is whether the game is worth the candle this year. After viewing the whole situation he is very likely to conclude that it will require too much money, with the chances of success too small to justify the expenditure. It is a moral certainty, however, whether the scheme is attempted again or not, it will not fool enough voters to make it a formidable factor in the election.

It was some time before the plight of the five employees was discovered.

A Charming Wedding is to Occur.

Prominent South Side Young Couple to be the Bride and Groom.

Call for a Successor to Rev. Clarence Mitchell to be Issued by South Side Church of Christ Soon.

There many friends in south Lima will be pleased to learn of the engagement of Miss Jennie Thompson to Mr. Carl Jacobs. The wedding will occur the first of September. It will be one of the most elaborate in south Lima this season. The bride elect is the charming and accomplished daughter of Mr. and Mrs. John Thompson, of south Main street. The prospective groom is a popular young south Lima man. Both have hosts of friends glad to join in expressing congratulations in advance.

In the absence of the pastor, Rev. Clarence Mitchell, who was called to Uniopeia to officiate at the funeral of Mathew Brewer, Rev. T. Hudson, formerly of Detroit, Mich., occupied the pulpit at the south Lima Christian church, delivering a strong, well appreciated sermon in a masterful manner. Rev. Mitchell returned for the evening service which was largely attended owing to the roll call feature in which great interest is being manifested.

Rev. J. W. Underwood, formerly of the south side, but lately pastor of the Christian church at Leipsic, has received an urgent call to the pastorate of the Christian church at Van Wert. Owing to the illness of his wife, the Underwoods will return from Leipsic this week to resume their residence at their former home on Madison avenue. Since assuming the Leipsic charge, Rev. Underwood has received several flattering offers of prominent churches the latest being the Van Wert call, which he may very probably accept.

At present much interest is being taken in the selection of a pastor for the south Lima Christian church. Owing to the care with which the official board is making the choice some very capable person will be called to the charge within the next few days. A number of prominent ministers of the state have conferred with the board. Saturday Rev. N. O. Krupp, of Hiram University, was here in reference to the matter. Today Revs. Bolton, of Findlay, and Simms, of Tiffin, were before the board. The latter applicants are ministers of pronounced ability, possessing more than local reputations as proficient ministers. It is thought that Rev. Mitchell's successor will be chosen within the next few days.

Saturday evening a horse driven by Mrs. Becker, ran away on south Main street, upsetting the buggy, throwing Mrs. Becker and her friend, Mrs. Strickler forcibly to the ground. The frightened horse was caught near the Erie railroad.

Nice kettle rendered hard to cents a pound at Crossley Brothers, 715 south Main street.

Next Sunday morning Rev. Mitchell will deliver a farewell sermon to the members of Solar lodge of Odd Fellows, who will attend services in a body. This will be the last opportunity he will have of addressing his brothers in the lodge before leaving for Wellsville, New York, to take charge of the Christian church of that place.

## WAR ON MOSQUITOES BEGUN

Dr. Doty's Crusade With Oil on Staten Island.

With a large tank wagon, a light spring wagon, five laborers and three policemen of the Richmond borough sanitary squad, Dr. A. H. Doty began the other day his effort to prevent the breeding of mosquitoes in that portion of Staten island adjacent to the quarantine boarding station, says the New York Sun. Dr. Doty was clothed in a mackintosh and leggings and the party was followed by a squad of camera fiends. Dr. Doty also had a camera and took several snap shots during the afternoon.

The start was made from the boarding station at 11 o'clock, and the party proceeded out Fingerboard road toward Grasmere. Operations were begun at a pond of some three acres' area in the woods near Fingerboard road. The pond is shallow and almost stagnant. A wooden raft about three feet wide and four feet long was placed in the lake, and beneath it was a gridiron frame of iron piping filled with small holes. A small pressure cylinder, worked by hand, was connected with the raft and with the tank wagon by lengths of garden hose, and the petroleum was forced through the holes in the piping about a foot beneath the surface. The oil rose quickly to the surface of the water and spread over it. Ropes were fastened to the raft, and Dr. Doty's assistants, walking along the opposite shores of the pond, drew the spraying raft all over the water.

This operation was repeated at a dozen small ponds or stagnant pools of water in the vicinity of Grasmere and Concord, and the party did not abandon work for the day until the oil-supply was exhausted. Meanwhile Dr. Doty directed the sanitary policemen in visits to many residences where the inspectors had found conditions adapted for the breeding of mosquitoes. The householders were advised to empty water barrels, fill in little puddles and clean up their premises. Several unused cisterns were also treated with oil.

Dr. Doty said that he was well satisfied with his first day's war against mosquitoes, as the work had been mechanically successful. What success had been attained in exterminating mosquito larvae cannot be determined for several days. The operations would be continued, Dr. Doty said, until all of the territory laid out, some five miles in area, has been gone over and the water pools treated to a spray of oil. There had been no opposition, he said, to his operations on the part of any residents in the district visited.

## GILBERTIAN BRIGANDAGE.

Chief of Italian Bandits Publishes His Code of Ethics.

Signor Rosario Buffalino, who has been in prison for a number of crimes, but succeeded in escaping, has written to the Giornale di Sicilia that he has just formed a band of brigands who have elected him their chief, writes a Rome correspondent. Chief Buffalino informs the public that the new band of brigands proposes to begin business in the new year and to administer justice according to the teachings of Holy Writ.

The letter concludes with an appeal to all those who are suffering from injustice or want a wrong avenged to apply to Signor Buffalino, who will consider each case on its merits and mete out the death punishment where he deems fit. Inclosed in the letter was 10 francs to pay for the insertion of the letter in the Giornale di Sicilia as an advertisement should the editor not think it to insert it in the correspondence column.

The leaders of the Chinese Reform association in San Francisco, which numbers not less than 6,000 members in California, have received an edict from the chief officers of the society that cues must be sacrificed on the altar of reform. The leaders of the organization declare that the order will be obeyed, so the cueless Chinese may soon be a common sight.

Yow, Chinese consul general, said recently to a New York Sun reporter: "In my opinion, the reform of China does not necessitate the cutting off of cues. In fact, such reforms, where they touch the religious observances and old customs of China, tread on dangerous ground. The proper way to reform China is to adopt such educational and commercial measures as are in keeping with the temper of the multitude."

## A New Woman's Club.

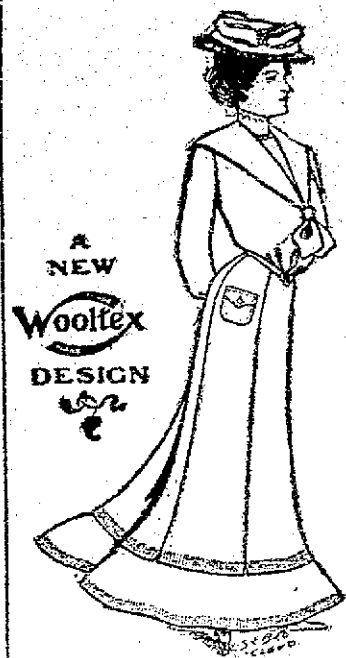

The newly organized Women's University club seems to be starting upon particularly favorable auspices so far as membership and enthusiasm are concerned. But there is a lion in the way, which, I fear, the ladies will not of, for it has been determined to run a club restaurant, says The Observer in Harper's Weekly. Now, it is well known that in men's clubs the restaurant account always shows a deficit. Furthermore, women are notoriously parsimonious in the larderhouse which they buy on their own account, one portion of ten and rolls divided among three persons, with a plate of ice cream, and no tip to the waiter, being the accepted feminine standard for a shopping expedition. In men's clubs the deficit is often made good by the cigar and bar returns, but how is the Women's University club to deal with the problem, unless—but no! The time is not ripe for the weed and cocktail in the sacred precincts of a woman's club. University or Plain. The only hope seems to lie in the establishment of a millinery department.

## CEDRON FOR YELLOW FEVER

Assistant Surgeon Hodgson Believes He Has Found a Specific.

Acting Assistant Surgeon S. Hodgson of the marine hospital service believes he has discovered a valuable remedy to be used in yellow fever cases, says a Washington despatch to the New York Sun. Dr. Hodgson has been stationed at Progreso, Mexico, for two years and has made a thorough examination of yellow fever cases there.

In a letter to Surgeon General Wyman of the marine hospital service he calls attention to the fact that, while valuable work has been done in China in demonstrating beyond question that yellow fever can be and is transmitted by the mosquito, another insect, more pestiferous, which may be quite as active an agency in spreading this disease as the mosquito, has been entirely overlooked, namely, the chinch or bedbug.

"In the tropics," Dr. Hodgson says, "the bedbug is all pervading, and his stealthy movements are more liable to accomplish the desired end than the buzzing mosquito."

"Among the remedies used in Central and South America as an antidote for the stings of insects and bites of snakes, the seed of the bean of cedron has been found to be a specific. A tincture is made from the grated or mashed

A Charming Wedding is to Occur.

Prominent South Side Young Couple to be the Bride and Groom.

Call for a Successor to Rev. Clarence Mitchell, to be Issued by South Side Church of Christ Soon.

There many friends in south Lima will be pleased to learn of the engagement of Miss Jennie Thompson to Mr. Carl Jacobs. The wedding will occur the first of September. It will be one of the most elaborate in south Lima this season. The bride elect is the charming and accomplished daughter of Mr. and Mrs. John Thompson, of south Main street. The prospective groom is a popular young south Lima man. Both have hosts of friends glad to join in expressing congratulations in advance.

In the absence of the pastor, Rev. Clarence Mitchell, who was called to Philadelphia to officiate at the funeral of Matthew Brower, Rev. J. L. Hudson, formerly of Detroit, Mich., occupied the pulpit at the south Lima Christian church, delivering a strong, well appreciated sermon, in a masterful manner. Rev. Mitchell returned for the evening service which was largely attended owing to the roll call feature in which great interest is being manifested.

Rev. J. W. Underwood, formerly of the south side, but lately pastor of the Christian church at Leipsic, has received an urgent call to the pastorate of the Christian church at Van Wert. Owing to the illness of his wife, the Underwoods will return from Leipsic this week to resume their residence at their former home on Madison avenue. Since assuming the Leipsic charge, Rev. Underwood has received several flattering offers of prominent churches the latest being the Van Wert call, which he may very probably accept.

At present much interest is being taken in the selection of a pastor for the south Lima Christian church. Owing to the care with which the official board is making the choice some very capable person will be called to the charge within the next few days. A number of prominent ministers of the state have conferred with the board. Saturday Rev. N. O. Krupp, of Hiram University, was here in reference to the matter. Today Revs. Bolton, of Findlay, and Simlin, of Tiffin, were before the board. The latter applicants are ministers of pronounced ability, possessing more than local reputations as proficient ministers. It is thought that Rev. Mitchell's successor will be chosen within the next few days.

Saturday evening a horse driven by Mrs. Becker, ran away on south Main street, upsetting the buggy, throwing Mrs. Becker and her friend, Mrs. Strickler forcibly to the ground. The frightened horse was caught near the Erie railroad.

Nice kettle rendered hard 10 cents a pound at Crossley Brothers, 715 south Main street.

Next Sunday morning Rev. Mitchell will deliver a farewell sermon to the members of Solar lodge of Odd Fellows, who will attend services in a body. This will be the last opportunity he will have of addressing his brothers in the lodge before leaving for Wellsville, New York, to take charge of the Christian church of that place.

Good Brooms 20 cents at Crossley Brothers, 715 south Main street.

Mrs. Samuel Yoder, accompanied by her son Dwight, returned Saturday night to their home at Ada, after a brief stay in this city.

## WAR ON MOSQUITOES BEGUN

Dr. Doty's Crusade With Oil on Staten Island.

With a large tank wagon, a light spring wagon, five laborers and three policemen of the Richmond borough sanitary squad, Dr. A. H. Doty began the other day his effort to prevent the breeding of mosquitoes in that portion of Staten island adjacent to the quarantine boarding station, says the New York Sun. Dr. Doty was clothed in a mackintosh and leggings and the party was followed by a squad of camera fiends. Dr. Doty also had a camera and took several snap shots during the afternoon.

The start was made from the boarding station at 11 o'clock, and the party proceeded out Fingerboard road toward Grasmere. Operations were begun at a pond of some three acres' area in the woods near Fingerboard road. The pond is shallow and almost stagnant. A wooden raft about three feet wide and four feet long was placed in the lake, and beneath it was a gridiron frame of iron piping filled with small holes. A small pressure cylinder, worked by hand, was connected with the raft and with the tank wagon by lengths of garden hose, and the petroleum was forced through the holes in the piping about a foot beneath the surface. The oil rose quickly to the surface of the water and spread over it. Ropes were fastened to the raft, and Dr. Doty's assistants, walking along the opposite shores of the pond, drew the spraying raft all over the water.

This operation was repeated at a dozen small ponds or stagnant pools of water in the vicinity of Grasmere and Concord, and the party did not abandon work for the day until the oil supply was exhausted. Meanwhile Dr. Doty directed the sanitary policemen in visits to many residences where the inspectors had found conditions adapted for the breeding of mosquitoes. The householders were advised to empty water barrels, fill in little puddles and clean up their premises. Several unusual cisterns were also treated with oil.

Dr. Doty said that he was well satisfied with his first day's war against mosquitoes, as the work had been mechanically successful. What success had been attained in exterminating mosquito larvae cannot be determined for several days. The operations would be continued, Dr. Doty said, until all of the territory laid out, some five miles in area, has been gone over and the water pools treated to a spray of oil. There had been no opposition, he said, to his operations on the part of any residents in the district visited.

## GILBERTIAN BRIGANDAGE.

Chief of Italian Bandits Publishes His Code of Ethics.

Signor Rosario Buffalino, who has been in prison for a number of crimes, but succeeded in escaping, has written to the Giornale di Sicilia that he has just formed a band of brigands who have elected him their chief, writes a Rome correspondent. Chief Buffalino informs the public that the new band of brigands proposes to begin business in the new year and to administer justice according to the teachings of Holy Writ.

The letter concludes with an appeal to all those who are suffering from injustice or want a wrong avenged to apply to Signor Buffalino, who will consider each case on its merits and mete out the death punishment where he deems fit. Inclosed in the letter was 10 francs to pay for the insertion of the letter in the Giornale di Sicilia as an advertisement should the editor not think fit to insert it in the correspondence column.

## CEDRON FOR YELLOW FEVER

Assistant Surgeon Hodgson Believes He Has Found a Specific.

Acting Assistant Surgeon S. Hodgson of the marine hospital service believes he has discovered a valuable remedy to be used in yellow fever cases, says a Washington dispatch to the New York Sun. Dr. Hodgson has been stationed at Progreso, Mexico, for two years and has made a thorough examination of yellow fever cases there.

In a letter to Surgeon General Wyman of the marine hospital service he calls attention to the fact that, while valuable work has been done in China in demonstrating beyond question that yellow fever can be and is transmitted by the mosquito, another insect, more pestiferous, which may be quite as active an agency in spreading this disease as the mosquito, has been entirely overlooked, namely, the cimex or bedbug.

"In the tropics," Dr. Hodgson says, "the bedbug is all pervading, and his stealthy movements are more liable to accomplish the desired end than the buzzing mosquito."

"Among the remedies used in Central and South America as an antidote for the stings of insects and bites of snakes the seed of the bean of cedron has been found to be a specific. A tincture is made from the grated or mashed

seed, and it is also made into a fluid extract. I made a tincture from the bean and used it as an antidote for the stings of insects and the bite of a snake and found that the action was almost immediate and the relief complete. The antiseptic properties of this remedy were so great that I thought it might be of some benefit in yellow fever and had opportunities to try it in several cases of that disease, and from the results concluded it is as specific for yellow fever as quinine is for malaria."

Dr. Hodgson says that the cases he treated were in Costa Rica, when he was government physician at Jimenez, and while he kept no notes of the cases, every one treated with the tincture of cedron recovered. He used the tincture by hypodermic injections of about 20 minims three times a day.

Its so different to the ordinary remedies, referring to cures made at different points which it is hard to verify. There is a reason for Dr. A. W. I ran down in strength and grew very nervous. Finally my mother called my attention to Dr. A. W. THE TIMES-DEMOCRAT RE-

truth of the rumor in regard to his  
alleged mental condition.—Chicago

states have expressed themselves as  
pleased and hopeful over the platform  
of the Ohio Democracy. This is the  
more significant because most of them  
are not Democrats who refused to sup-  
port the Bryan ticket, but party men  
who have been constant in upholding  
everything which has borne the label  
of Democracy.—Philadelphia Record.There are several points of resem-  
blance between the case of Admiral  
Schley and that of General Fitz John  
Porter. Both were in important com-  
mands long after their alleged offenses  
were committed. Both were the vic-  
tims of incompetent superiors who for  
one reason or another sought to de-  
stroy them. Both were accused of  
failure to do their duty in battles in  
which they fought most heroically.The result in Ohio is so close on  
the legislature this year that Gov.  
Nash, the Republican candidate, ad-  
mits if the Democrats carry Cincin-  
nati, Cleveland and Toledo they will  
be very apt to have the legislature  
and defeat Foraker for reelection.  
It is not improbable that the Demo-  
crats will carry the three cities.  
They are all doubtful quantities, and  
this year has some political surprises  
in store. Governor Nash believes hewill be elected, but is somewhat anx-  
ious, and it is not to be forgotten that  
the Democrats occasionally elect a  
governor in Ohio, even if they have  
not carried the state at a presidential  
election for fifty years.There are now four states where the  
death penalty is not maintained—  
Rhode Island, Maine, Michigan and  
Wisconsin. Colorado's law, passed at  
the last session of the legislature re-  
storing the death penalty has recently  
become operative, without the gov-  
ernor's signature. Iowa some years  
ago, after an experiment of the ab-  
sence of the death penalty, re-enacted  
capital punishment, after abandoning  
it for six years, with the result of a  
largely increased number of homi-  
cides. There are other states where  
the death penalty is practically aban-  
doned by limitations on its exercise.  
Of the forty-five states there are  
twenty-two, or less than half, in which  
the death penalty without nullifying  
limitations, is left on the statute  
books.EDITORIAL COMMENTS FROM

## BY FIRE

Heavy Damage Done Near  
Wapakoneta Yesterday.Fire last evening totally destroyed  
the barns, granary, 1000 bushels of  
wheat, 800 tons of hay, wagons and  
harvesting machinery of George Koh-  
ler, north of Wapakoneta. Several  
horses were badly burned. A number  
of chickens caught afire, and running  
into the farm house, set fire to a pile  
of rags. The house was saved by  
hard work. Loss \$4,000; partly in-  
sured.

## INVITATION TO ADVERTISERS.

We cordially invite all advertisers  
and others interested in newspaper  
circulation to visit our press room and  
inspect the circulation of the Times-  
Democrat as it is run out from our  
fast Hoe press. We absolutely guar-  
antee a circulation greater than any  
other Lima newspaper has now or  
ever had in its history of this city.

## REFORM

In the Administration  
of This CityThe Theme of a Sermon De-  
livered Last NightBy Rev. G. W. Anderson at Ep-  
worth Tabernacle—An Enor-  
mous Crowd Greeted the  
Eloquent Preacher.One of the most forcible and elo-  
quent sermons ever delivered in Lima  
was that of Rev. G. W. Anderson, of  
Epworth church last evening in the  
tabernacle on Bellefontaine avenue.  
It was announced in the church direc-  
tory on Saturday that the topic of the  
sermon would be "The Sign at the  
Bonne Piles," and that the sermon  
would be on the present condition of  
this city and a plea for better govern-  
ment. The result of this announce-  
ment coupled with Rev. Anderson's  
reputation as a profound thinker and  
an eloquent speaker, filled the taber-  
nacle to overflowing and standing  
room was at a premium.In an eloquent, forcible manner the  
divine pointed out the evils of the  
present administration, picturing in a  
most graphic word painting the mani-  
fold evils which are resulting from the  
present wide-open policy of Mayor  
McComb, which is bringing the town  
into disrepute and placing numberless  
pitfalls before the youth of the city.  
For the sake of the purity of our  
homes; for the sake of the youths of  
Lima; for the sake of all that is re-  
garded as conducive to the welfare of  
the community, the eloquent speaker  
entered a plea for a better government  
in this city, and for a cleaning out of  
those conditions which are now a  
menace to good morals and a bar to  
proper administration in the executive  
department of the city.

## THE IDLER.

The Lima Brewing company which  
always keeps abreast with the times,  
Saturday placed in operation a new  
Phoenix bottling machine. This  
machine has just recently been put on  
the market and the company above  
stated is the first in this city to pur-  
chase one. The new device places a  
cap and rim on the mouth of the bottle  
instead of the old way of driving a  
cork into the neck. It is a great im-  
provement over the old way of bottling  
on account of its neatness and the  
convenience of opening the bottle for  
use. All you have to do is to remove  
the rim with thumb and finger and the  
cap comes off.Wagner, the Lima pitcher, who was  
on the slab for the Wapakoneta team  
at Delphos in the game on the 4th of  
July morning, has been engaged to  
pitch for the Delphos Greys against  
Napoleon, next Wednesday.William Price and Edward Evans of  
Delphos, have left the county and  
Dave Price, a brother of the former,  
has paid a fine of \$100 for dynamiting  
fish in the Auglaize river. The Del-  
phos Rod and Fishing club gathered  
enough evidence against the men to  
make sure of their conviction and  
then notified state Game Warden  
Reutenger, who came to Delphos to  
prosecute the offenders. The offen-  
der is one of the most serious violations  
of the game laws the minimum fine  
being \$100. Dan Price liquidated, but  
the other men are still at large.Jim Guncheon, of the Elk, sends two  
of his Kentucky runners, Can Roberts  
and Irish Boy, to Kokomo, Ind., Thurs-

Sad Rites for the

## Were Pompous

Funeral Services Held  
at Cronberg.The Royalty of Several Na-  
tions was Largely  
Represented.With an Imposing Military Display  
Outside, the Impressive Serv-  
ices were Held in the  
Church.Cronberg, Aug. 12.—People flocked  
into Cronberg to see the august per-  
sonages who would attend the requi-  
em service Sunday over the remains  
of Dowager Empress Frederick. The  
officers of the regiments of which the  
deceased was honorary colonel stood  
guard over the coffin. Carriages from  
Homburg, Frankfurt and other points  
brought those invited to the solemn  
ceremony. Considerable bodies of  
troops, both infantry and cavalry, also  
arrived. At 2:30 p. m. the Eightieth  
regiment formed up along the streets  
and the band of the Bochenheim hus-  
sars took its stand over the church.  
Every window, balcony and house-top  
was filled with people awaiting the ar-  
rival of the imperial personages.  
Baron Von Reischach, court marshal of  
the dowager empress, superintended  
the arrangements. Sir Frank Lascelles,  
the British ambassador, was among  
the first to arrive. He took a seat  
facing the coffin, which was cov-  
ered with wreaths. On either side of  
the coffin were four officers holding  
the standards of Prussia and of the  
deceased. Between them and the cof-  
fin were other officials bearing drawn  
swords. Gradually the church filled  
with officers in splendid uniform and  
women wearing deep mourning. The  
congregation included the Duke of  
Connaught, the Duke of Cambridge  
and several members of the British  
royal household, the Count Von Bu-  
low, Count Von Waldersee, Dr. Spie-  
hagen and General Von Lindequist.At 4 o'clock the roll of muffled  
drums announced the arrival of Em-  
peror William and King Edward, who  
had driven together from Homburg.  
The emperor, wearing the black uni-  
form of the empress' own Prussian  
hussars, led Queen Alexandra into the  
church, while King Edward, in blue  
uniform of the King Edward Prussian  
dragoons, conducted Empress Augus-  
ta Victoria. Princess Victoria, with  
Princess Charles of Hesse, the Grand  
Duke of Baden, the Crown Prince and  
Princess of Greece, with their chil-  
dren and the Prince of Saxe, togeth-  
er with the suites of all.As the organist played the funeral  
march Dr. Dryander advanced to the  
head of the coffin. The four eldest  
sons of Emperor William stepped for-  
ward with drawn swords and stood  
close to the coffin. The choir from  
Berlin cathedral sang "I Know That  
My Redeemer Liveth," and Dr. Dry-  
ander read a specially written prayer  
and delivered an oration extolling the  
virtues of the departed empress,  
dwelling on her trials and sorrows.The choir sang the anthem, "The  
Spirit Saveth They May Rest From  
Their Labors," followed by the hymn,  
"Wein ich Enimel Soli Schieden,"  
and "Be Thou Faithful Unto Death."  
As the last strains died away King  
Edward and Queen Alexandra ad-  
vanced and laid a wreath upon the  
coffin. The king remained standing  
a few moments alone beside the coffin  
and then turned and left the church,  
which was slowly evacuated.The service owed much of its im-  
pressiveness to the historical associa-  
tions recalled by the medieval edifice  
in which it was held. At its conclu-  
sion Empress Augusta Victoria and  
Queen Alexandra drove in a victoria  
to Homburg, the emperor and king  
following in a second carriage. The  
streets were congested with sight-  
seers long after the imperial and  
royal personages departed.Edward's Arrival at Homburg.  
Homburg, Aug. 12.—The city of  
Homburg was astir early to witness  
the arrival of King Edward. Emperor  
William in the uniform of a field mar-  
shal, accompanied by the empress and  
their sons, together with their suites,  
was followed by Count Von Walder-  
see, Count Von Buelow and others,  
who drove to the railway station  
about 9 o'clock. The emperor reviewed  
the guard of honor. At 2:15 the  
royal train arrived. King Edward, inthe blue uniform of the Prussian dra-  
goons, alighted with Queen Alexandra,  
Princess Victoria and Prince Nicholas  
of Greece. Emperor William affec-  
tionately clasped the hand of the Brit-  
ish monarch and gave him a cordial  
welcome. He then kissed the hands  
of Queen Alexandra and Princess Vic-  
toria. Their majesties conversed a  
few minutes and their respective  
suites were introduced. King Edward  
warmly shaking the hand of Count  
Von Waldersee. The guard of honor  
then marched past, after which the  
imperial and royal party was escorted  
to a hotel, where the emperor and em-  
press remained a quarter of an hour,  
and then drove to Homburg castle.  
The streets were not lined with troops  
and the carriages were not escorted  
by cavalry. King Edward and Queen  
Alexandra returned the visit of the  
emperor and empress at the castle.

says the Marion, Ind., Chronicle.  
The company is incorporated with \$500,000  
capital stock. It has been dealing in  
the crude. It owns wells in Blackford  
and Wells counties, and has a number  
of producers in the Godfrey Indian  
reservation. The company has at this  
time about 350 acres of territory and a  
core of producing wells.When it begins refining the product,  
it will become a competitor of the  
Standard. It is possible that it will  
buy crude oil in the open market for  
refining purposes. The oil will be piped  
to Montpelier, it is said, and from  
there will be taken to Indianapolis in  
tank cars, to be handled by the refiners.Oil men are of the opinion that the  
refinery might be located in Marion to  
greater advantage, of the Diamond  
company knows a good oil field, and  
can secure entry here. The piping of  
oil from the Blackford county field to  
Marion, is not much more trouble than  
the conduct of the fluid to Montpelier,  
and with a refinery here, the trip to  
Indianapolis by rail is saved. The  
shipping facilities are such as to make  
the plan feasible. The Diamond com-  
pany could find all the crude oil it  
needed to operate its plant right here.Monthly Statement.

room at the plant. The men had

light of which to examine the bottoms  
of the boilers and the flame from the  
torch ignited a quantity of natural

the furnaces during the time that the  
boilers were not in service. The ex-

## Judgments Rendered, Sales Confirmed and Motions Heard at the Session Over Which He Presided Today.

Judge Armstrong cleaned up a lot of business today of a miscellaneous character, two divorce decrees being among the number of cases that received the final consideration of the court.

Mary E. Gibson was granted an absolute divorce from Frank Gibson and has the custody of her three minor children, the grounds upon which the decree was based being desertion and gross neglect of duty. The plaintiff now lives with her father near Elida, while the husband, who deserted his wife and children about five years ago, is now living at Lexington, O. Charles Adkins represented the plaintiff.

A divorce was also granted upon the application of Emma Helverson vs. James Helverson, as made through Meyer Mackenzie & Wendock, and the plaintiff was also granted the custody of her daughter and alimony in the sum of \$100.

Among the other matters that received consideration and in which orders were made on the trial docket, were the following:

A. C. Haver vs. Harold C. Reese, foreclosure decree and order of sale.

Mary E. Holzfoster vs. John Holzfoster, order that M. A. Atmure, receiver, collect the rents from the rest-

duces property on the south side and that the plaintiff be required to turn over all the money she collected. Allen county Building and Loan Association vs. Isaac S. Shunk, foreclosure; decree and order of sale. The same entry is made as to Ezra L. Mummaw.

Louis M. Brooker vs. Geo. W. Courson, equitable relief and application for receiver; Charles S. King made a party defendant.

Marcella Bresler vs. Wm. T. Murray, foreclosure; judgment by default. J. Hubbard vs. M. C. Baxter, cognovit; judgment rendered for \$363.40. Israel Williams vs. Geo. W. Disman, equitable relief; M. Special by wire to Times-Democrat, Chicago, Aug. 12.—A mysterious dynamiting case of last night is explained. Vincenzo Alanzo, a jealous Italian buried dynamite at a house where Ruby Fox, his sweetheart lived. Ruby was seriously injured but Vincenzo was torn to pieces and killed by the explosion. If the Italian had not bungled it is believed that twenty people living at the Fox residence on Clay street, would have been killed.

## Some Interesting Facts Connected With Zartman's Present Position.

## A Wise Kid Works a Bunco Game on Switchman Long, Who Paid a Dollar for the Recovery of His Cow.

There is an interesting chain of circumstances connected with the acceptance by S. B. Zartman of the position as General Superintendent of the St. Louis, Caruthersville and Memphis railroad, remarked a Lima official to a Times-Democrat representative yesterday, and being encouraged to continue, he related the following facts which weave together the names of several railroad men who have been closely connected with local lines:

"According to the bulletins issued by the road above mentioned, Mr. Zartman was elevated to the position of General Superintendent, relieving J. H. Burgoon, and it is that fact which constitute the sequel to this tale which again bears out the proverb that chickens will come home to roost. Burgoon at the time the Ohio Southern was in the hands of receivers was made superintendent with headquarters at Springfield. He found upon his arrival that K. A. Gohring was performing the duties of train master, but Mr. Burgoon was accompanied by a young man who was just breaking into railroad harness and it was his desire to place Johnny Haas in the position held by Mr. Gohring. A new time card was decided upon and after Train Master Gohring had diligently performed that laborious task, he was notified of the intended change and Mr. Burgoon received the resignation he desired.

"Mr. Gohring served in an official capacity on another line and finally came to Lima where he was placed in the C. H. & D. dispatcher's office. Then came the reorganization of the Clover Leaf and Gohring's ability as the Ohio Southern trainmaster recommended him to Mr. Norton, who tendered him the splendid position of superintendent of the Toledo division. Gohring promptly accepted and it was through his influence that Bert Zartman was made chief clerk to the general superintendent and a short time after promoted to the position of superintendent of the St. Louis division of the road. The sudden and unexpected separation of his employment with the Clover Leaf is too well known to be repeated, but Mr. Zartman did not remain in the back ground long as recent developments have proven, and he was made an offer which took him to Memphis, and he learned then that he was to relieve J. H. Burgoon, the erstwhile superintendent of the Ohio Southern and the man who had so summarily dismissed Trainmaster Gohring. And by the way, Mr. Zartman has a good position as he not only enjoys the title of General Superintendent of the St. Louis, Caruthersville & Memphis road, but is also Assistant General Manager of the St. Louis & Memphis and Memphis & St. Louis lines, both of which are under construction and will eventually unite with either end of the road which Mr. Zartman now superintends.

A Conductor Buncoed. The C. H. & D. boys say that yard conductor Grant Long has been buncoed. Not long ago a lad who wanted a dollar conceived a clever trick into which Grant fell with both feet. The lad, it is said, knocked a few boards off the fence of a cow pasture in which Mr. Long's cow was grazing and after watching the animal stray away a short distance, he notified the owner that his cow was out. He received a dollar for finding and driving the cow back to pasture.

General Notes. The building of a union station at Muncie, to cost \$30,000, was commenced Friday. As planned, the station will be used by the Big Four and the Lake Erie and Western, and probably the Chicago and Southwestern. The Lake Erie and Western bridge gang have been engaged this week in digging a twenty-foot well at Ossian that will be twenty-eight to thirty feet in diameter. By digging so large a well they expect to tap several water veins and get an

abundance of water. Ft. Wayne Sentinel.

Conductor Frank Strohl, of the L. E. & W., is taking a two weeks' vacation.

Former ticket agent F. A. Bauchens, of the Pennsylvania, returned to Toledo today, after a visit in Lima over Sunday.

Traveling passenger agent E. K. Blaby, of the Pennsylvania, who is located at Cleveland, was a visitor in Lima yesterday.

Baggage master John Fullerton, of the Pennsylvania station, has gone to northern Indiana for a visit and during his absence, W. T. Longworth, the night man will fill his place. George Beeman has the night trick in the meantime.

C. H. & D. Notes. Conductor Fitzmaurice has relieved conductor Wise on car 28.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwiler, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently and have never known it to fail in any single instance." For sale by Wm. M. Melville, old post office corner.

## FATAL

### Termination of the Injury.

### Coyne is Dead

### And the Murderer Still at Large.

### Ugly Knife Wound in the Abdomen Proved Fatal to the Tramp.

### Left No Information That May Lead to the Apprehension of the Murderer or Finding of Relatives.

James Coyne, the tramp who was found in a box car near the Erie junction last Wednesday night, suffering from a deep ragged wound in the right side of his abdomen, died in a charity ward in the city hospital about 8 o'clock this morning, death resulting from the wound that, according to the ante-mortem statement made by the victim to coroner Burton, was inflicted by a colored man.

From the time when Coyne's wound was examined by the hospital physicians the latter had little hope for his recovery. He rallied two or three times but the improvement was only temporary and he grew weaker steadily until death terminated his sufferings. The body was removed to Bennett's morgue this morning and this afternoon coroner Burton and Dr. Bies held a post mortem examination for the purpose of ascertaining the immediate cause of death.

The dead man left behind him no information that gives promise of the apprehension of the murderer or the finding of the deceased's friends or relatives, to be had any. In his ante-mortem statement he declared his home was in New York city and that he was 31 years of age and an iron moulder by trade, but he could not remember any street address in New York city and stated that in case of death he had no relatives or friends who should be notified.

As will be remembered Coyne stated last Thursday that he had climbed into the empty car after coming to this city from Huntington, Ind., and had gone to sleep after removing his shoes, when he was suddenly awakened by a colored man, who had entered the car and was endeavoring to get away with his shoes. He attempted to recover the shoes when the colored man struck him in the abdomen with a knife and then escaped.

He could only describe his assailant as being a large man and if a person answering the meager description given should be captured, there is no one who could now identify him as the murderer.

The remains of the murdered man will be held while an effort is made to locate some friends or relatives in New York city.

## WEDDING

### Of Miss Ruth English Occurred Last Wednesday.

The many friends in Lima, of Miss Ruth English, the former training school teacher, will be interested in the announcement of her marriage which occurred last Wednesday at the home of her parents in Belfast, N. Miss English resigned her position shortly after the close of the school and while it was not generally known, a few of her intimate friends were aware that there was an interesting event in contemplation. The cards received announced that Mr. and Mrs. Landis will be at home after September first corner of Fort-second and Sherman streets, Pittsburg, Pa. During her stay in Lima Miss English surrounded herself with a large circle of friends, and the services she rendered the schools in fitting teachers for their work, has received from the superintendent and board of education the warmest of praise.

### Bidding for Pieces of His Body.

### A Finger of Radabaugh Sold for a Dollar.

### Memorial Services Were Held at Bradner Yesterday But There Were No Remains for Burial.

The memorial services of Will Radabaugh, blown up near Bowling Green by dynamite, were held at Bradner Sunday, conducted by the Odd Fellow and Rebekah lodges, of which he was a member.

His mother and sweetheart, Miss Mable Mitchell, with friends, made a vigorous effort to find some vestige of the boy's remains that a burial might be had. Three small pieces were in possession of Dr. J. C. Snyder, of Bowling Green, and he has been asked to turn them over to friends, says the Findlay Republican. It has been learned that the portion of the finger found in a tree half a mile away was purchased for a dollar from the party who found it. There was considerable trading and dickering about the scene for relics and particles of wagon, harness and man after the explosion and it may be necessary to offer a reward to recover the young man's remains.

Mrs. Gurninger says that on the morning he started away an incident occurred which made her feel mean all day. He forgot his watch, and came back after it. She called attention to the idea that it was ill-luck to come back after anything, but he said it was simply a piece of superstition. The young man was a jolly fellow and there is universal mourning at his sudden taking off.

Mother's lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Cherry in the house. Nature's specific for summer complaints of every sort.

## REMAINS

### Of the Victim of a Railroad Accident

### Brought to Allen County for Burial Yesterday.

Jacob Detrick Instantly Killed by a Big Four Train at Sidney—Funeral Held at Sugar Creek Church.

Jacob Detrick, a former resident of this city, was instantly killed by a Big Four passenger train at Sidney, Friday evening, and the remains were brought here for burial yesterday afternoon. The funeral services were held at the Sugar Creek church and were conducted by Rev. J. H. Fitzwater, of Sidney and interment was made in the Sugar Creek cemetery.

Detrick was employed at the Sidney gas works as the night stoker and was going to his work when the accident occurred. He started down the Big Four track to the gas works, a trip that he had made every evening for the past eighteen months. He was a little hard of hearing and it is supposed that as his attention was attracted to the freight train above on the C. H. & D. bridge he never thought about the passenger train or heard it coming behind him. When the train struck him he was hurled about twenty feet and alighted along the side of the track. He was dead when those who witnessed the accident, reached him. The deceased was about 42 years of age and is survived by his wife and seven children. He also leaves one brother, Samuel Detrick and one sister, Mrs. Isaac Miller, of this county.
